Reconsideration

Elnagdy, Maher-Mr. Maher has requested to speak before the Board regarding is unsuccessful passing of the Fundamentals of Engineering and Professional Engineering Exams. Mr. Maher is scheduled to appear at 9:15 am. (Dist. 2)

Mr. Elnagdy appeared before the Board for some guidance on taking the professional exams. The Board advised that he may want to split taking the exams and sit for one exam in the spring and the other in the fall. Mr. Elnagdy may also look into some schools in actual test taking and to look at the diagnosis analysis that is provided after the exam for guidance. The Board acknowledged that the candidate has an excellent degree in engineering and as well as his engineering experience.

G-Other Items

Policy regarding technology programs for Connecticut schools and schools outside of Connecticut- such as Wentworth.

Section 20-300-6 (c)-Senior students in the last semester of an engineering curriculum in certain Connecticut schools which would have placed the individual under the Class 10 experience requirements shall be permitted to take Part 1 of the examination prior to graduation and prior to meeting the experience requirements of Class 10, provided application for the examination is made no later than the dates given in Sec. 20-300-5 (b) depending on whether the last semester is in the spring of fall. Such applicants upon passing this examination will be licensed only if they are certified as having completed all graduation requirements and meet the experience requirements of Class 10. Such applicant who passes the

examination may submit his or her experience record for consideration two years after graduation.

The Board has held many discussions in the past when reviewing applicants who hold 4-year engineering technology programs, especially out of state schools, such as Wentworth Institute of Technology that these applicants be allowed to sit for the Fundamentals of Engineering prior to gaining the required 2 -4 years of engineering experience. The Board would consider other out of state schools and consider this class under Section 20-300-6 (c). The candidate would be issued a certificate after the passing of the FE exam and the required experience.

Motion made by (9) and seconded by (5) to adjourn the meeting. Motion carried.

Meeting adjourned at 11:10 am.

The next meeting for the Board is scheduled for April 13, 2010.
