NOTES from the DEPARTMENT . . .

FARM TO KITCHEN TO MARKET AN EDUCATIONAL SUCCESS

by Jaime Lizée-Smith, Agricultural Marketing Representative

With close to 100 farmers and specialty food producers in attendance, speakers had a captive audience to share commercial kitchen start up information, national and local trends, and regulations and food safety facts.

The morning begins with a presentation by Brian Norder from the VT Food Venture Center who kicked off the day on the right foot – if you want to start a commercial kitchen, you must start at the beginning! Mr. Norder reviewed the requirements, things to consider when designing and building a kitchen, and how your end product will affect layout and function within the kitchen.

Mr. Norder was followed by Ron Tanner, Vice President of the National Association for the Specialty Food Trade (NASFT), a highly respected organization representing specialty food producers throughout the United States. NASFT is well known for the Summer Fancy Food Show held each summer in New York City and for the Specialty Outstanding Food Innovation (SOFI) awards. Mr. Tanner's presentation gave attendees insight into new and upcoming trends in the world of specialty foods. He gave attendees ideas and suggestions for how to diversify your product line and make it more versatile for a wider audience at large.

Food health and safety regulations 101 rounded out the morning sessions. A topic most people aren't interested in, Diane Wright-Hirsh, UConn Cooperative Extension Food Safety Educator, Ellen Sloane from the CT Department of Consumer Protection, and Tracey Weeks from the CT Department of Public Health, held the audiences' attention as they reviewed the importance of food safety and the accompanying regulations.

After lunch, Lee Kane, EcoCzar from Whole Foods Market gave audience an overview of trends from a local perspective. He discussed how to get your product into a Whole Foods Market both in the local area and regionally.

One of the most beneficial sessions of the day was the panel 'Seasoned' Just Right! Specialty food producers from Connecticut, with both an agricultural and non-agricultural background, shared their experiences on starting their kitchen and developing their product(s). Panelists, Beth Hilson, Gluten Free Pantry/Glutino, Patrick Horan, Waldingfield Farm, and Phyllis Haynes, Mariah's Chow Chow Relish reassured attendees that establishing a specialty food product, building a commercial kitchen, or connecting with a co-packer are obtainable and should be pursued!

The day was concluded with a session on tips for marketing a specialty food product which was presented by Kurt Houser from Ola! Granola. Ola! has been featured on many national talk shows and printed in a variety of specialty food publications. Mr. Houser's 'top ten' gave attendees easy ways to successfully market their specialty food product.

Many thanks to the CT Women's Agricultural Network (WAgN) for organizing this fantastic program. For more information about CT WAgN and other upcoming programs visit www.ctwagn.com.

NEW WIC FRUIT AND VEGETABLE CHECK PROGRAM TRAINING TO BE HELD

Tuesday, March 30th, promptly at 6:00 p.m.

Windsor Valley Laboratory Agricultural Experiment Station
153 Cook Hill Road, Windsor, CT 06095.

This is the newest supplemental food program that is open to farmers' market participation. This program is different from the current WIC and Senior Farmers' Market Nutrition Program (FMNP). A list of current market participation is available upon request.

Please RSVP and direct questions to Rick Macsuga (Richard.Macsuga@ct.gov) or Mark Zotti (Mark.Zotti@ct.gov)

Directions: From Interstate 91: •Traveling south: Take Exit 37, at the end of ramp, turn left on Bloomfield Avenue (Route 305, East). Take first right Cook Hill Road. First driveway on the right.

• Traveling north: Take Exit 37, at the end of the ramp, turn right on Bloomfield Avenue (Route 305, East). Take first right Cook Hill Road. First driveway on the right.

THE UCONN DEPARTMENT OF PUBLIC POLICY SPEAKER SERIES PRESENTS: AGRICULTURE, FOOD, AND PUBLIC POLICY IN CONNECTICUT

Featuring:

Connecticut Department of Agriculture Commissioner F. Philip Prelli
and

Fresh sandwiches, salads, and desserts
from The Kitchen @ Billings Forge.

Monday, March 29, 2010 from 12 to 1:30PM

Room 404 in the Library Building, UConn Greater Hartford Campus
Guest parking is available in the Trout Brook lot.

Discussion may include topics such as public policy, farmland preservation, organic and local food movements, the future of agriculture in Connecticut, and much more.

To ensure lunch is available for all, please RSVP by responding to Matthew Robinson, matthew.robinson@uconn.edu, 860-558-3770 For more information about the UConn Department of Public Policy, visit the website at <http://dpp.uconn.edu/>.

COMMUNICATING THE VALUE OF AGRICULTURE IN YOUR TOWN—

An AGvocate Workshop

Wednesday, March 31, 2010, 6:30 to 9 pm

Canterbury Town Hall, Town of Canterbury Community Center

1 Municipal Drive, Canterbury, CT

Are you an agricultural producer, agricultural based business, a municipal decision maker, or do you just have an interest in keeping Connecticut's working lands viable?

Join us on March 31 for a FREE workshop, sponsored by the AGvocate program, to learn about communicating the value of agriculture in your Town.

This workshop will cover:

- Effectively communicating the economic and environmental benefits of farming and the value of farms.

- Direct experiences of farmers and municipal officials on navigating Town Hall to make farms viable.

Share Ideas, Gather Resources

FREE Registration begins at 6:30 p.m.

Workshop will run from 7 to 9 p.m.

Directions: The Canterbury Community Center at the Canterbury Town Hall, 1 Municipal Drive off RT 14 (Westminster Road), about 1 1/2 miles west of the RT 169 the intersection. www.canterbury@ct.org

To assure adequate materials, contact Jennifer Kaufman, AGvocate Program Coordinator, 860-450-6007 or AGvocate@yahoo.com to reserve your space.

WORKSHOP AGENDA

6:30 p.m. Registration & Light Refreshments - Meet AGvocate pilot town representatives

7:00 p.m. Working Lands and a Vital Economy, Paula Stahl, LLA, ASLS, AICP, Co-Director Green Valley Institute - The economic value of working lands is multi-faceted and frequently misunderstood. With Paula's dual background in finance and community planning, she will clearly explain the fiscal impacts of agriculture and some tools and techniques for vital working lands.

7:45 p.m. Refreshment Break

8:00 p.m. Navigating Town Hall—Austin Tanner, Creamery Brook Bison, Paul and Diane Miller, Fairvue Farm, and Steve Revisky, Executive Director, Ct Farm Bureau Association, and John Guskowski, President, Eastern CT Resource Conservation and Development Area, Inc and Senior Planner, CME Associates. - Are farms Commercial? Residential? Industrial? What

MORE COMMUNICATING ON PAGE 4

COMMUNICATING FROM PAGE 3

about farmstands, agritourism, or farm diversification? There are many different ways that Towns understand, define, and regulate agriculture.

This panel will discuss some of the successes and failures of connecting farm activities with municipal regulations.

.8:40 p.m. AGvocate Program Update - Ashford, Brooklyn, Canterbury, Franklin, Sterling, and Thompson

9:00 p.m. Adjourn

ABOUT THE AGVOCATE PROGRAM

Since June 2009, the towns of Ashford, Brooklyn, Canterbury, Franklin, Sterling, and Thompson have been working with circuit rider "AGvocate", Jennifer Kaufman, to implement tools to strengthen farm friendliness, including forming agriculture commissions, reviewing tax reduction programs, planning for farmland protection, and establishing right-to-farm ordinances. A second grant has extended the program for another year and increased the number of participating towns to 10 of the 26 Connecticut towns within The Last Green Valley Heritage Corridor. For more contact Jennifer Kaufman, AGvocate, at 860-450-6007 or AGvocate@yahoo.com.

TRYPTOPHAN-ENRICHED DIET REDUCES PIG AGGRESSION

Feeding the amino acid tryptophan to young female pigs as part of their regular diet makes them less aggressive and easier to manage, according to a study by Agricultural Research Service (ARS) scientists and cooperators.

The tryptophan-enhanced diet reduced aggression and overall behavioral activity among young female pigs during the 8-month study. Tryptophan, which is only acquired through diet, is the precursor for the calming cerebral neurotransmitter serotonin. Keeping swine calm is important, because aggressive behavior can harm them and increase feed and medical costs for producers.

The study was done by ARS doctoral student Rosangela Poletto and animal scientist Jeremy Marchant-Forde at the ARS Livestock Behavior Research Unit in West Lafayette, Ind. Collaborators included biologist Heng-Wei Cheng at the ARS lab in West Lafayette, and Purdue University scientists Robert L. Meisel and Brian T. Richert.

The supplemented diet raised blood concentrations of tryptophan in 3-month-old females by 180 percent, and by 85 percent in 6-month-old females, resulting in calmer animals, mainly at the younger age. Persistent aggression in pigs can cause chronic stress, leading to poorer welfare, increased disease susceptibility and reduced growth and efficiency.

In the study, a diet with 2.5 times the normal amount of tryptophan was fed for one week to grower pigs (3 months old) and finisher pigs (6 months old). Another group of pigs received a normal diet. Behavioral activity and aggressiveness were measured before and after the seven days of diet supplementation.

To test aggression, researchers put an "intruder" pig in the pen until an aggressive interaction was triggered or for a maximum of five minutes. Pigs receiving the high-tryptophan diet showed less aggression--fewer attacked the intruder, and those that did attack were slower to do so--compared with the animals that didn't get the supplement.

Pigs form social groups that, over time, form stable hierarchies or "pecking orders." However, when new individuals are introduced, aggression is used to re-establish a new hierarchical order. If repeated changes in group composition occur, persistent aggression may arise, sometimes leading to physical injury and acute stress. A tryptophan-enriched diet may help producers avoid these problems, especially when groups of pigs are mixed together.

The research was published in the journal Applied Animal Behaviour Science.

ARS is the U.S. Department of Agriculture's principal intramural scientific research agency. The research supports the USDA priority of promoting international food security.

Connecticut Weekly Agricultural Report (ISSN: 1059- 8723, USPS 129-340) is published weekly (48 issues), except for Thanksgiving, Christmas, when the Governor closes State offices, and two additional weeks, for \$20.00 per year (hard copy - email copies are free) by the Connecticut Department of Agriculture, 165 Capitol Avenue, Hartford, CT 06106.

Advertising Rates: Fifteen words or less \$3.75 per insertion. For ads of more than 15 words, 25 cents per word per insertion. Initial letters, hyphenated words, phone numbers and addresses, etc., are counted separately. **Print or type copy.** Publication on a specific date cannot be guaranteed. Advertisements will be published on a first-come-first serve basis. Ads must be received by noon the Friday before a publication date to be considered for insertion. **Only ads of an agricultural nature with a Connecticut phone number will be accepted.** Remittance with copy required. Make checks or money order payable to the Connecticut Department of Agriculture and mail to: Marketing - Ag Report Classifieds, Connecticut Department of Agriculture, 165 Capitol Avenue, Hartford, CT 06106.
